

Aqua Flavour

DESCRIPTION :

AquaFlavour Sconcentrate is a highly concentrated blend of short-chain peptides and amino acids, tailored to enhance the feed attractiveness and protein utilization in shrimp. Its formulation is based on extensive lab and field evaluations showing significant improvements on feeding rate, growth and food conversion.

AquaFlavour Sconcentrate consists of a blend of marine and synthetic specialty ingredients which provide additional nutritional benefits to the formulation besides improved palatability and attractiveness.

BENEFITS :

- Stimulate appetite
- Accelerate detection, location and ingestion of feed
- Improve feed losses as a result of nutrient leaching and uneaten pellets
- Stimulation of protein digestion
- Balancing amino acid nutrition; particularly in formulations containing low levels of animal protein
- Regeneration of gut / hepatopancreas epithelia

COMPOSITION :

- Blend of specific feeding attractants, proteins and peptides of suitable chain length, free amino acids and nucleotides
- Certified free of potential carriers of shrimp viruses
- Protected by antioxidant & anti-mould agents; free-flowing agents and carrier materials
- 100% free from terrestrial animal proteins and antibiotics

CHARACTERISTICS :

- Crude protein Min. : 67%
- Crude fat Min. : 13%
- Crude ash Max. : 10%
- Density : 550-600 g/l
- Color : light brown
- Smell : strong marine, fishy smell
- Granulometry : 95% smaller than 500 µm (32 Tyler, 35 mesh)

EXPERIMENTAL TRIAL :

APPLICATION & DOSAGE :

- 5 gm/ Kg of feed for palatability enhancer
- 10 gm/ Kg of feed for Nutritional Booster
- Consult our field staff / your aquaculture specialist for specific usage and directions

PACKAGING :

- 750 gm HDPE Bottle

STORAGE :

- Store in a cool and dry place away from direct sunlight; keep package closed when not in use

PRESENTATION :

- 1kg HDPE bottle
