

CITROMAX³⁰⁰TM

Antibiotics Free : Tested in Laboratories Approved by EIA and
Ministry of Commerce and Industry, Government of India

CITROMAX³⁰⁰TM is of organic origin and protects the shrimp against pathogenic bacteria and fungi and leads to good health. **CITROMAX³⁰⁰TM** is a broad spectrum non-antibiotic bactericide and fungicide which act on the shrimp gut against the invading pathogenic micro-organisms pathogenic bacteria like *Vibrio* sp, enter the shrimp gut through ingestion probably originating from pond sediment waste. **CITROMAX³⁰⁰TM** eliminates such invading pathogenic micro-organism by its strong bactericidal effect. The unique combination of **CITROMAX³⁰⁰TM** formula in addition to maintaining shrimp health, also helps in neuro-vegetative system and increases nutrient absorption.

Benefits : A powerful bactericide of organic origin and prevents shrimp from any bacterial or fungal disease. Additionally eliminates use of antibiotics or other synthetic fungistats, bacteriostats and acidifiers.

Dosage : 0.5 gm / Kg of feed on daily basis for normal application, one feed a day. Under symptoms of bacterial or fungal infection increase dosage to 1gm/Kg of feed and 2 application per day continuously for 5 days.

Ingredients : Mixture of Natural organic compounds and lactic ferments with traces fo Ascorbic acid, Palmitic acid. Mannose, Glucose, Glycerides, Fatty acids, Amino acids, Citric bioflavonoides, Tocopherols and carrier.

Presentation :
100 g dry powder / can

Store :
Store in dry, cool place, avoid direct sunlight
