Nanozim Extra Power is

- ◆ Highly concentrated formulation.
- ◆ Suitable for conventional foliar and drip irrigation applications.
- ◆ Shows quick visual results.
- ◆ Chelating properties making the nutrients contained in marine plant available to commercial crops.

Dosage and Dilution:

Field trials at under differential soil and climatic condition have proved that **Nanozim Extra Power** enhanced quality and marketable yield significantly when applied @ 1-2 gms per liter of water at following critical stages of crops.

- Seedling Stage
- Physiological Development Stage
- Pre Flowering Stage
- Fruiting Stage

It can be apply throughout growing season at an interval of 10-15 days.

Important Note for handling:

- It is suggested to dilute this powder with water and stir it well before mixing it with other formulations.
- Diluted Nanozim Extra Power formulation is compatible with commonly use fertilizers, insecticides and fungicides except which are of highly alkaline in nature, growth retardants & herbicides.
- Close the lid tightly after use.
- Store at room temperature and avoid exposure to direct sunlight.

Use **Mixin** for better activity of sticker, spreder, rainfastner & activator for superb yield.

आपकी फसल के
पोषण का राज!!

Nanozim Extra Power a super concentrated powder developed out of novel fermentation of nutrient rich arctic marine plants. It is an excellent outcome of intense blend of multiple coats of valuable nutrients and growth supplements researched by our scientist of Marine Plant Technology at state of the art R & D centre of InGene Organics to ensure top quality performance and ample yield of all commercial crops.

Pioneer Innovation in Marine Plant Technology in India

Super Power of Nanozim

Power Pack formulation: Nanozim Extra Power is a complex mix of nutrients and precursors formulated with Fast Free Flow formula that ensure fast translocation of nutrient to vital plant parts for comprehensive nutrition.

Natural Growth Enhancer :

Nanozim Extra Power helps to accelerate nutrient absorption from soil by enhancing germination, dense white rooting, and thicker stalks resulting in more lateral growth so that plants get healthier and stronger.

Dual Strength Plant Activator :

Nanozim Extra Power ensures steady supply of nutrients during critical stages like vegetative stage as well as reproductive stage.

Natural Stress Buster :

Nanozim Extra Power sprays builds up immunity and anti stress capability that helps to combat environmental stress, disease and pest attack and

Full Spectrum Feeder:

Nanozim Extra Powder supplies growth and flowering supplements to ensure complete nutritional activity for uniform ripening, bigger and lustrous fruits and reduces premature drop of flowers and fruits.

High Performance Powder:

It contains all four categories of foliar enhancer including uptake enhancer, natural growth precursors and full spectrum feeders for assured results.
